

# Fruchtbringende Gesellschaft

## New EP: «Holzkopf» from 06/23/2023

**New E.P. Holzkopf: Fruchtbringende Gesellschaft release three new tracks at Bandcamp.com, at the 06.23.2023.**

Rudi Raschberger and Ulrich Mevs take us with at an exploring journey through minimalistic melodies and ambient appearances.

Despite complacent pop sprinkle nevertheless the music hasn't lost the bulkiness of their previous albums S/T and Isernhagen (Fidel Bastro116/Broken Silence). Synthetic sounds meet up with soundscapes and all sorts of acoustic finds, accompanied by analog, intermittently to the point of unrecognizable guitar workout. Even this kind of beloved meditative slowness doesn't fall short.

The titeltrack Holzkopf comes as an innovative binaural 3D-Audio Dolby Atmos Mix, by Christian Mevs (plankton studio).
